EXPERIENCE

ENNOVATIONS TECHSERV PVT. LTD. / Software Engineer

05/2023 - 01/2025

- **Developed interactive UI components** using **React.js, Redux, and JavaScript**, enhancing user engagement and performance.
- **Styled responsive designs** with **Tailwind CSS, SCSS, and Material UI**, ensuring seamless cross-device compatibility.
- **Optimized front-end performance** by reducing re-renders, lazy-loading assets, and improving API call efficiency.
- **Managed global state** using **Redux Toolkit**, streamlining data flow and improving maintainability.
- **Integrated RESTful APIs** with **Axios and Fetch**, ensuring smooth communication between front-end and backend services.
- **Built authentication systems** using **Node.js, Express.js, JWT, and Bcrypt**, enhancing security and user access control.
- **Implemented MongoDB** for efficient data storage and retrieval, optimizing backend performance.
- **Ensured cross-browser compatibility and accessibility compliance (WCAG)** to enhance the user experience.
- **Collaborated in Agile development cycles**, contributing to sprint planning, code reviews, and stand-up meetings.

Cuvette tech / internship

12/2022 - 05/2023

- **Developed and Maintain UI Components** – Assist in building responsive and interactive user interfaces using **React.js, HTML, CSS, and Tailwind CSS**.
- **Collaborate with Designers & Backend Teams** – Work closely with UI/UX designers and backend developers to ensure seamless integration of APIs and a visually appealing design.
- **Optimize Performance & Responsiveness** – Improve website performance by optimizing components, reducing load times, and ensuring mobile-friendly designs.
- **Debugging & Troubleshooting** – Identify and fix bugs in existing code, ensuring smooth functionality across different browsers and devices.
- **Learn & Implement Best Practices** – Follow modern **JavaScript (ES6+), React Hooks, and Tailwind CSS** best practices while keeping up with industry trends.
- **Version Control & Deployment** – Gain experience with **Git/GitHub** for version control and learn about deploying web applications using **Vercel or Netlify**.

Technical Skills

- **Languages/Technologies:** JavaScript, HTML/CSS/SCSS, OOPs, SQL, RestAPI
- **Frameworks/Libraries:** ReactJS, ExpressJS, Material UI, Tailwind CSS, Bootstrap, Redux
- **Databases:** MongoDB, MySQL
- **Others:** NodeJs, JSON, Git, GitHub, Webpack, Modular FE architectures SPA, Axios, Bcrypt.js, Socket.io

PROJECTS

Quiz builder App / JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB

- Developed a full-stack **quiz builder app** that allows users to create, share, and manage quizzes, integrating **JWT authentication** for user login and account management, with options for anonymous users to take quizzes.
- Implemented two quiz types (**poll** and **Q&A**), a **timer feature** for questions, and real-time **score calculation**, alongside analytics to track impressions and identify trending quizzes
- Secured user passwords using **bcrypt.js**, followed best practices for **form validation, error handling**, and project structure, and styled the app with **vanilla CSS** to match the Figma design.

Form-bot App / JavaScript, ReactJS, NodeJS, Express.js, MongoDB

- Built both the front-end and back-end for the Form-bot App using **React, JavaScript, ExpressJS**, and **Mongoose**. This involved developing APIs for user management and CRUD operations, allowing users to create forms, view responses, and share forms through public links for others to complete.
- Implemented **JWT authentication** and secured user passwords using **Bcrypt.js** for enhanced security.
- Designed a user-friendly interface with responsive design principles to ensure a seamless experience across various devices.
